

Building a Business Edge Through Sustainability Strategy

 30 July 2025 – 2 August 2025
9am to 6pm Singapore Time

 SIM Management House
41 Namly Avenue Singapore 267616

Objectives

- ✓ Understanding sustainability strategy as a competitive advantage
- ✓ Starting sustainability projects, reporting, and disclosures
- ✓ Forging business resilience in ASEAN partnerships
- ✓ Certified as a sustainability reporting professional

Schedule

Day 1	Arrival & Business Matching
Day 2	Sustainability Strategy Forum
Day 3	Corporate Visits
Day 4	Reporting & Disclosure Workshop

In today's landscape, sustainability strategy is no longer optional—it's a vital business imperative driven by tightening regulations and evolving market preferences for socially responsible enterprises.

In this 4-day Sustainability Learning Journey, you'll gain insights from industry experts on topics such as developing effective sustainability strategies and mastering sustainability reporting and disclosure.

Through real-world case studies, you'll deepen your understanding and apply practical approaches to embedding sustainability into your business.
